## Criteria For Success:

Being able to make every class on time so her students do not miss out on any class time.

## Needs

- To be on time every day
- Provide a valuable education for her students

## Wants

- Something that is easily accessible on a daily basis
- Parking class to her academic buildings

## Values

- Student growth
- Punctuality to her classes

## Fears

- Being late to class
- Doesn't actually improve student achievement
- Having to cancel class because there is no parking

# John by Noah Parker

age: 19

residence: Columbia, SC

education: College

occupation: College

marital status: Not married

*\*yawn\**

John wakes up at 7am every morning. He heads to school by 8 and needs to find parking.

## Comfort With Technology

## Criteria For Success:

He needs to know where parking spots are open so that he can get to class on time. He would like an easy to use interface.

## Needs

- He needs the app to be quick, easy to use and help him chose the right parking spot

## Values

- He values his time and wants to be productive at all times. He doesn't want to waste time looking for a parking space and risk being late.

## Wants

- He wants to always be on time. He wants to know that he has a parking spot available and where it is.

## Fears

- He fears not being able to see where the parking spot is and his app not loading. He fears being late to class and extracurricular activities.

# John Parker, by Deep Patel

age: 38

residence: Columbia, SC

education: 4-year business college degree

occupation: Business owner

marital status: Married, 2 kids

*"Opening on time is important to maximize profit in the city"*

John Parker wakes up at 6AM to go open his restaurant in downtown Columbia. His shop serves breakfast until dinner and he works all hours. In order to avoid any mishaps, parking in a good spot is important to quickly pick up materials needed and to open and close on time, respectively.

## Criteria For Success:

Opening shop on time and not being stressed first thing in the morning about parking

## Needs

- Opportunity for business,
- Parking for handicap and valued costumers,
- Steady input and output of people entering and exiting the restaurant

## Values

- Having a schedule for constant success,
- Organized plan for minor setbacks

## Wants

- Many open spots near his restaurant,
- Easy access to downtown area,

## Fears

- Being late to open shop,
- Losing business because of no parking for costumers,
- Not being able to provide for his family
